# Leadership Summit

THE FUTURE OF BANKING

13 MAY 2022 | MUMBAI

**PAVING THE WAY FOR INDIA'S DIGITAL BANKING FUTURE**

# 7th BFSI Leadership Summit

Friday, 13 May 2022 | Mumbai

## OVERVIEW

In recent years, digital innovation has been the driving force in banking and finance, with an emphasis on all major factors such as consumer convenience, accessibility, and system performance. Customers, employees, and regulators are embracing the reliability, convenience, and efficiency of digital financial services, prompting financial institutions to refocus their digital and data transformation initiatives – not only to cope with the new "socially distant" reality, but also to tap into a new digitalization momentum.

Top industry experts agree that the real challenge lies in real-time adoption, hyper customization, and simplification of AI and Analytics in business operations while building a long-term AI-powered sustainable banking ecosystem. Traditional banking procedures are being transformed into a more robust, connected, and dynamic ecosystem that satisfies the customers' ever-changing needs.

Back for its **7th edition**, the **"In Person" BFSI Leadership Summit 2022**, to be held on **Friday, 13th May, 2022** in **Mumbai** focused on the theme **"PAVING THE WAY FOR INDIA'S DIGITAL BANKING FUTURE"**, brings together the top players in the Indian BFSI sector for an in-depth look into the latest technologies and digital developments that are transforming the industry. BFSI Leadership summit looks at how banking, insurance & other financial services companies in India are adapting to the ever-changing digital landscape and continue to innovate with technology in the financial services industry.
